tips and tricks again

- ◇ get yourself a monitor with at least 2.5k x 1k pixels!
 - about \$150! <https://www.newegg.com/Product/Product.aspx?Item=N82E16824025340>
- ◇ use google for both finding data and maps!
- ◇ keep it simple, especially if things go wrong in qgis

future

- ◇ i provide limited customer support over limited time
 - need GIS student? email Straso:
sj372@scarletmail.rutgers.edu
- ◇ stop by 321 Cooper
 - –there will be an awesome lab on 1st floor in few weeks!

comments?

- ◇ most useful parts?
- ◇ least useful parts?
- ◇ which one: qgis, geoda, goog maps, python?
- ◇ another workshop's software and area?
- ◇ anything else?
