

ps0: upto 3 points of extra credit

[version: Friday 28th January, 2022 12:01]

1. write a one page outline or an abstract or a summary of what you'd like to write a paper about in this class
2. be as specific as possible; eg: lit rev only (and i'd do quant for you)? quant? (dataset, vars, model)
3. submit on canvass by the beginning of the next class
4. again, in addition to assigned readings, dont forget about doing your own lit rev! whatever you study, just put that and 'happiness' into goog sch and do lit rev! eg for libraries: https://scholar.google.com/scholar?hl=en&as_sdt=0%2C31&q=libraries+and+happiness&btnG= then may adjust query, say https://scholar.google.com/scholar?hl=en&as_sdt=0%2C31&q=reading+books+and+happiness&btnG= or: https://scholar.google.com/scholar?hl=en&as_sdt=0%2C31&q=public+space+and+happiness&btnG= lit rev takes time, and is necessary, start now!
5. again, to figure stuff out it's critical to spend a lot of time (say >10hrs ; ideally >25hrs per week) on google scholar!
